

PROFESSIONAL SUMMARY

Versatile full-stack developer with extensive experience in JavaScript, React, and customer-facing product development. Specializing in scalable, user-focused applications with a strong emphasis on good UX design, REST API development, and end-to-end systems development life cycles. Proven ability to troubleshoot complex issues, deliver innovative software solutions, and collaborate effectively across teams. Skilled in transitioning teams to modern development methodologies, including Agile and CI/CD pipelines, while improving system performance and user satisfaction.

TECHNICAL SKILLS

Frontend: React, TypeScript, Next.js, HTML, CSS, SCSS, Tailwind, Bootstrap

Backend: Node.js, Express, Golang, REST APIs, MongoDB, Postgres, Python

DevOps: AWS (EC2, S3, Lambda), Docker, GitHub Actions, CI/CD, Linux, GCP

Design & Tools: UX/UI Design, User Research, Figma, Sketch

EXPERIENCE

FULL-STACK DEVELOPER - CONSULTANT | COLLEGE OF ARTS AND MEDIA | REMOTE | SEP 2024 - PRESENT

- **Collaborated with stakeholders to diagnose system bottlenecks** and recommend **scalable solutions** during **enterprise-level software transitions**.
- Designed and implemented **user-friendly interfaces aligned with user needs**, prioritizing accessibility and intuitive navigation.
- Enhanced system reliability by **upgrading authentication protocols** and **optimizing REST API designs**.
- **Built investigative applications** to automate data validation, reducing error rates and enhancing accuracy for reporting systems.

FREELANCE FULL-STACK DEVELOPER | MAY 2024 - PRESENT | *Clients: Learning Resources Center, Guerilla Sports, College of Arts and Media, University of Northern Arizona*

- Built **customer-facing digital signage platforms** with React and Node.js, improving scalability and user adoption.
- **Automated provisioning workflows** using Ansible and Linux, enhancing deployment efficiency.
- **Developed backend APIs in Golang** for seamless device management with secure authentication.
- Designed and implemented **user-focused solutions across multiple industries**, aligning with client needs.

LEAD SOFTWARE DEVELOPER | LEARNING RESOURCES CENTER | DENVER, CO | APRIL 2021 - MAY 2024

- **Spearheaded the development** of a multi-functional admin platform using **React, Next.js, and AWS Lambda**, reducing load times by 80% and improving user productivity by 60%.
- Focused on customer needs to **design interfaces that enhanced user satisfaction** by 60%.
- Designed and integrated RFID scanning systems to enhance analytics accuracy, improving operational efficiency by 70%.
- Delivered RESTful APIs foundational to **scaling internal tech infrastructure**, supporting cross-functional teams.
- **Led workshops** on new system features, achieving a **50% reduction in onboarding time for Agile teams**.

EDUCATION

BFA in Digital Design (UX/UI Emphasis) *University of Colorado Denver*

PERSONAL PROJECTS

PMDB: A social app to help users discover movies/TV shows, featuring real-time sessions and streaming service integration. Built with Golang, Postgres, Redis, and React.

Echo: AI-driven interaction platform utilizing React and OpenAI APIs, deployed securely on AWS EC2.

HomeLab: Smart home automation platform with Ubuntu server, Docker, and custom APIs, showcasing infrastructure expertise.
